

# Chacarita flooding

PS : Flooding in the Chacarita

Gwen was at the Annexe school today and Catalino, the head, told her about the flooding in the Chacarita which is affecting school families. 47 children have had to move, some to other family members, most into temporary wooden huts and one family to a food kitchen run by the big Pentecostal church. Catalino sent us some photos. The people put up the wooden huts with materials provided by the government. It is likely that two or three of the families will need help soon.

Photos from the Chacarita. Catalino went to visit.
