FEISA - PARAGUAY

The students are teaching regular classes via Zoom. Those of the second year are completing their internships at Colegio San Cristobal and those in third year at Colegio Life. All classes have been on-line. We thank God for these schools that have provided the students with placements this year.

There are 10 students who are preparing their written work for end of year assessments.

Reasons for Praise and Thanksgiving:

For the students who have continued with their studies despite the challenges of COVID19.

Prayer Requests:

Please continue praying for patience through this pandemic and good health for all the students

Prayer Points:

Chris Hawksbee has long been involved with Moringa projects and writes that a tea of moringa, lemon and ginger has proved very successful in treating Covid-19 sufferers in Colombian prisons. Thought to build up the immune system, this treatment is to be tried in two prisons in Paraguay. Pray for the success of this trial, and that Indian families who invested in planting these trees can again get an income selling their produce.

Beryl Baker praises God for the ranch workers and their families who meet with her for Bible studies and prayer. She reports several deaths at La Herencia, both young and old. Pray for strength for her in her ministry, and for the people she serves.

Pray for the children across the wider region of Latin America who are feeling the harsh secondary impacts of the COVID-19 pandemic. In Ecuador, there has been a large increase in malnourishment of young children aged 0–5. In Honduras, only 2 out of 24 of children In most of the region children are amongst those most restricted in freedoms, only being allowed out for short periods of exercise. Pray for all of these children’s wellbeing and for changes to be made to improve their situation.
