

News from Dany and Flavia Lescano

New Striders in Argentina and Chile

In September we received 11 Striders. Now there are 15 in total. We had 5 days of orientation with them and now all are settled in their projects. It is an excellent group. It is great to see their desire to serve God and how open they are to learn from God in a different culture.

Now we are organizing projects for next year's Step teams and projects for the Striders who will arrive in February.

We are very happy, and we want to share with you a great new: in October we send the second strider from Argentina to Europe! Mariane will be working in Scotland for one year.

God changes lives

During the last service in the Anglican Cathedral six people received Christ into their lives. During one of the meetings we prayed for a man who did not know Christ who suffered from phobias. The following week he came with joy to tell us that he was healed and that he had the Lord in his heart. Glory to God. He is great!

We have had another EJE (Youth Encounter in the Spirit)!

Thank God! Despite the difficulties in the preparations for the 11th EJE we could see God's hand working in this encounter through beautiful testimonies. The mother of one of the young people who were invited sent us a letter a week after the event saying the following:

...My family was going through a deep crisis, with deep wounds. There was love but it was not spoken of or expressed or shown in anyway... but through words full of cries or a hug so big and strong like the one exchanged between my husband and son a start was made. From that moment everything changed. Maybe it was that my prayers to God were answered and he channeled this through EJE.

"May the Lord direct your hearts to God's love and Christ's perseverance."

2 Thes 3 :5

Please pray for...

- . Thank God for the way he worked in the lives of many young people in EJE.
- . We ask God to guide us in finding a house to rent for next year.
- . We ask God for strength to finish this final phase of the year.
