

The next day the other two infant classes had their show. They did really well and their English was quite clear. Gwen hadn't been part of the preparations for that but was thrilled to see how well they did with an ex pupil teaching them.

## Annexe

Later that day the annexe infants did their show and were really good.

## Water Day

The secondary had a final visit to the Sports ground for water day. They had a 13m high bouncy slide and fun and games with water balloons. In the hot sun it didn't matter how wet they got. Mags has learnt and took spare clothes with her. A great soggy time was had by all.

## Primary

On the Friday our younger primary had their service in the cathedral. It was a lovely Christmas service. We sang 10 000 Reasons and the children really sang their hearts out. An ex teacher, Diego who is now a missionary in Africa gave such a clear Gospel message about John 3 :16 and inviting everyone to be part of change in the World.

## Ecuador

Mags attended all of these events as Gwen was in Ecuador. Gwen was invited by the British embassy to attend a British universities fair in Guayaquil and Quito. One of the highlights of her trip was the discovery that Rosie Banbury (daughter of missionary friends and our god daughter) was in Guayaquil on her year out and so they were able to meet up. We hadn't seen her for 5 years but hope she'll visit us next year when she goes to spend some time in Brazil.
