

IGCSE night

Our pupils sit the Cambridge IGCSE and AS level exams and on Friday we had the Certificate ceremony to which the new British ambassador came to give out the certificates. The 2nd form performed various poems from their IGCSE books. They did really well and everyone enjoyed it. It's great to know that the embassy has returned after 8 years absence. The ambassador also asked if he could come into school the day before to see what he was coming to and to get to know us. It's good to see him interested in education and wanting to send students to the UK to study. The embassy has offered Gwen the chance to go to Ecuador at the end of November to a British University exhibition.

The new British Ambassador with his wife and Bishop Peter and Sally.

We are both fit and well. Our animals are fine although we had a fright on in the middle of the month when our dog, Munchie, was ill and we thought it was the end. We took her to the vet's and left her. It was remarkable to see how well she was when we returned two days later.

Thanks for all your prayers and support,
God Bless and love from,
Gwen and Mags

Please get in touch about visits in January.

After two postponements, the Primary enjoyed their Interschool sports competition, with eight other schools taking part up at the Sports Ground. It was a cool day but brightened up later and the kids played their socks off. It was all very exciting with the under 8s winning their cup. We also invited some special children to come and run some races with our kids. It was lovely to watch them all so happy together. We are hoping to bring them to play football as well.

Unify

At the moment we have a new house guest. Deborah goes to the English chapel and works in the American school and recently was knocked off her bike by a car. She had to have a knee operation and has her leg in a splint and so was unable to climb the stairs to her flat! She has come to stay until she is able to return home.

Five pupils have won medals in a National Maths contest.

One pupil has been giving out toys at the Annexe and other homes brought by a Foundation run by her aunty.
